WHEREAS, by practice, outdoor storage occurs as an accessory use for many nonresidential uses, but the UDC does not have standards for outdoor storage as an accessory use; and

WHEREAS, the UDC does not address outdoor display; and

WHEREAS, to address these issues, the City's planning staff has recommended the changes to the UDC attached as an exhibit to this Ordinance; and

WHEREAS, a public hearing was held on the proposed changes on August 3, 2026, before the City of St. George Zoning Commission; and

ARTICLE 9.2. SPECIFIC USE STANDARDS

* * *

Sec. 7:9.2.27. Outdoor Display and Storage

- A. Purpose. The purpose of these standards is to balance the need to display or store items outdoors with community aesthetics and safety.
- B. Outdoor Display. Allowed where customarily associated with a permitted nonresidential principal use and shall:
1. Be maintained in an orderly manner;
 2. Not obstruct required sight visibility;
 3. Not interfere with vehicle or pedestrian circulation; and
 4. Be set back to the distances established as minimum yard requirements.
- C. Outdoor Storage
1. All items stored outdoors shall be stored so that they are not visible from any public street or any residentially used or zoned property, to the maximum extent practicable. Methods for achieving this include, but are not limited to:
 - a. Placing items behind and no higher than buildings or screening on the site; or
 - b. Minimizing the height of items not located behind buildings or screening.

2. In no case shall stored materials be higher than the maximum height allowed by the zoning district.
3. Location. Shall not be located within required:
 - a. Landscape buffers;
 - b. Drainage servitudes; or
 - c. Parking areas.
4. Shall be maintained in an orderly manner.
5. Yards. There shall be no outdoor storage, when the outdoor storage area is a(n):
 - a. Principal use in the MX-4 or B-2 districts, within the lesser of:
 - (1) Any street yard; or
 - (2) 15 feet of any public right-of-way; or
 - b. Accessory use, in any street or side yard.
6. Screening from Street. Outdoor storage shall be screened from streets by a 15-foot L3 buffer, except in the B-3 district.
7. Planted Buffer. For Sec. 7:18.3.3. Required Buffers Between Abutting Properties, the planted buffer shall be, when outdoor storage is a(n):
 - a. Principal use, that required for a light industrial use, except the buffer type shall be no less than L3; or
 - b. Accessory use, the greater of:
 - (1) The buffer required for the principal use; or
 - (2) A 20-foot L3 buffer.
8. The unenclosed or unsheltered storage or keeping of any old, stripped, wrecked, partially dismantled, or otherwise non-operating vehicles, machinery, implements, equipment, building materials, or personal property of any kind, which is no longer in good operating condition or safely usable for the purposes for which it was manufactured, is prohibited, except as allowed for wrecked vehicle storage.
 - A. No outdoor storage within the lesser of any street yard or 15 ft of any public right-of-way. B- L3 buffer to screen from streets of adjacent properties.
- D. Display or Storage of Large Outdoor Items. Because large outdoor items can create significant visual impacts, the outdoor display or storage of large outdoor items shall:
 1. Be at least 250 feet from any residentially used or zoned property; and
 2. Require approval of a Site Plan (Sec. 7:8.1.16), which may:
 - a. Grant a reduction in the minimum distance from a residentially used or zoned property if the applicant demonstrates that existing buildings, topography, vegetation, or other site features provide an equal or greater level of protection from visual impacts than strict compliance with these standards; and
 - b. Include conditions such as increased setbacks, enhanced landscaping, berms, walls, fencing, building placement, topographic buffering, or other site design techniques to minimize visual impacts on public streets and adjacent residential properties.
